Technical Skills

Languages

Ruby, Javascript, HTML, CSS, SQL

Frameworks and Libraries

Rails, React, Bootstrap, Tailwind

DBMS

MySQL, MongoDB, Postgresql

Soft Skills

- Problem Solving
- Communication
- Project Management
- Leadership
- Research
- Agile Methodology

Education Background

- **Coder Academy**
Diploma of IT (Web development bootcamp)
Expected Completion July 2022
- **Queensland University of Technology**
Bachelor of Engineering (Honours)
(Civil Engineering, Construction and Environmental Management)
Second Class Honours – Division A
2018 – 2021

About Me

I am currently studying the final term of Coder Academy's Coding Bootcamp to attain a Diploma of Information Technology and kick start a career in software development. I have a background in geotechnical and environmental engineering which has helped to broaden my problem solving skillset.

On my way to becoming a junior software developer I have created terminal applications and a two sided marketplace application using ruby on rails. Check out my [portfolio](#) or [github](#) to view these projects.

Professional Experience

Construction Sciences

Feb 2022 – Present: Geotechnical Engineer (Part-time)

Nov 2021 – Feb 2022: Graduate Geotechnical Engineer

Sep 2019 – Nov 2021: Undergraduate Geotechnical Engineer

Key responsibilities:

- Geotechnical and environmental engineering report writing
- Supervision and operation of geotechnical drill rigs
- Management and supervision of field staff for geotechnical investigations, pavement investigations and reinstatement, civil earthworks and trenching, pile construction, slope remediation, instrumentation installation and maintenance.
- Geotechnical slope stability assessment and modelling
- Project management of jobs under \$100,000 AUD
- Assisted in project management of jobs up to \$2,000,000 AUD
- Preparation of project tenders
- Desktop based GIS studies

Tamex Transport/Wizz Couriers

Sep 2019 – Nov 2021: Allrounder

- Key responsibilities:
- Courier driver
- Sorting freight
- Data entry
- Loading and unloading vehicles

Achievements

- | | |
|------|--|
| 2021 | National Project of the Month Award
Site engineer and field manager responsible for the 400k geotechnical investigation for Queensland Rail's West Moreton Bridge Renewal Project. |
| 2020 | QUT University Dean's List
Recognition of excellent academic performance (Semester GPA >6.5) |
| 2019 | New Colombo Plan Mobility Scholarship
Received the NCP Mobility scholarship to travel to Cambodia and participate in the Humanitarian Design Summit. |
